A FEW OF OUR MANY SERVICES OFFERED

ADDICTION THERAPY

Counseling is an essential part of drug abuse treatment for many youth. Cognitive Behavioral Therapy, Family Counseling, and other therapy approaches can help youth recovering from addiction stay clean.

ANGER MANAGEMENT

At Clear Conscience Counseling, the purpose of anger management is to help a young person decrease the heightened emotional and physiological arousal often associated with anger.

FAMILY THERAPY

Family therapy sessions can teach youth and family members skills to deepen family connections and get through stressful times, even after youth and caregivers are done having therapy sessions.

ICs / BAs and MENTORS

INDIVIDUAL THERAPY

Our philosophy here at Clear Conscience Counseling is that Individual therapy (sometimes called "psychotherapy" or "counseling") is a process through which youngsters work one on one with a trained therapist—in a safe, caring, and confidential environment to explore their feelings, beliefs, or behaviors; youth are supported while they work through challenging or influential memories, and identify aspects of their lives that they would like to change.

YOUTH MENTORING

The goal of youth mentoring at Clear Conscience Counseling is to improve the well-being of the youth by providing a role model that can support the youth academically, socially and/or personally. This goal is accomplished through school work, communication, and/or activities.
